Education

Guru Tegh Bahadur Institute of Technology   Sep. 2022 – July 2026
Bachelor of Technology in Information Technology (9.2 CGPA)   *Delhi, India*

Relevant Coursework

- Data Structures
- Algorithm Analysis
- Software Methodology
- Database Management
- Computer Networking

Experience

Luxury In Taste   July 2024 – Dec 2024
Backend Developer   *Bengaluru, India*

- Developed scalable Django-based web apps, boosting user experience by **30%** through backend optimization and clean architecture.
- Built and integrated RESTful APIs with Django REST Framework, enabling efficient front-end and third-party service connectivity.
- Improved response time by **40%** via query tuning and indexing in PostgreSQL and SQLite databases.
- Deployed and scaled applications across **AWS**, **Azure**, and **GCP**, leveraging **Docker** and **Kubernetes** for seamless container orchestration.

JMedia   Jun 2024 – Sep 2024
Web Developer   *Remote*

- Built responsive, user-friendly web interfaces in collaboration with designers and PMs, enhancing usability and aesthetics.
- Developed and integrated RESTful APIs to enable smooth front-end/back-end communication, improving feature delivery.
- Streamlined development workflows using Git for version control, and contributed to robust, maintainable code through testing and reviews.

Tender Heart NGO   July 2024 – Sep 2024
Web Designer   *Faridabad, Hybrid*

- Developing an Autonomous Accounting platform for the CFO office, enabling data-driven financial insights and streamlined decision-making.
- Implemented key features to enhance user experience and streamline financial insights, reducing manual effort and improving data visualization efficiency by 30 percent.
